INTERVIEWS	
Inmate/Resident/Detainee Interviews	
Random Inmate/Resident/Detainee Interviews	

53. Enter the total number of RANDOM INMATES/RESIDENTS/DETAINEES who were interviewed:	20
54. Select which characteristics you considered when you selected RANDOM INMATE/RESIDENT/DETAINEE interviewees: (select all that apply)	<input checked="" type="checkbox"/> Age <input checked="" type="checkbox"/> Race <input checked="" type="checkbox"/> Ethnicity (e.g., Hispanic, Non-Hispanic) <input type="checkbox"/> Length of time in the facility <input checked="" type="checkbox"/> Housing assignment <input type="checkbox"/> Gender <input type="checkbox"/> Other <input type="checkbox"/> None
55. How did you ensure your sample of RANDOM INMATE/RESIDENT/DETAINEE interviewees was geographically diverse?	Using the Inmate Roster, the auditor selected inmates for interview. Randomly selected inmates from all housing units were selected by age, race, and ethnicity. No inmate refused interview with the auditor, the inmates were polite and forthcoming during interviews.
56. Were you able to conduct the minimum number of random inmate/resident/detainee interviews?	<input checked="" type="radio"/> Yes <input type="radio"/> No

Targeted Inmate/Resident/Detainee Interviews	
58. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:	20
<p>As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".</p>

<p>b. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).</p>	<p>There were no inmates that were identified with a physical disability on-site for interview.</p>

SITE REVIEW AND DOCUMENTATION SAMPLING

Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

<p>84. Did you have access to all areas of the facility?</p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
---	---

Was the site review an active, inquiring process that included the following:

<p>85. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?</p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
<p>86. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?</p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
<p>87. Informal conversations with inmates/residents/detainees during the site review (encouraged, not required)?</p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
<p>88. Informal conversations with staff during the site review (encouraged, not required)?</p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>

<p>89. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).</p>	<p>During the on-site tour, the auditor tested phones to ensure they were operational. Dialing instructions were posted by the phones. The auditor placed a call to the PREA Unit's Hotline number and received a conformation receipt of the call. The auditor was able to observe the intake and risk screening processes, during the on-site portion of the audit. The auditor informally interviewed inmates and staff during the site tour. The auditor conducted informal interviews with staff, contractors, and inmates during the walk-through of the facility.</p>

Documentation Sampling

Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files- auditors must self-select for review a representative sample of each type of record.

<p>90. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?</p>	<p><input checked="" type="radio"/> Yes <input type="radio"/> No</p>
--	--

<p>91. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).</p>	<p>All information requested was provided by the facility while on-site and during the report writing phase.</p>

SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY

Sexual Abuse and Sexual Harassment Allegations and Investigations Overview

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term "inmate" in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

92. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual abuse allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations

Sexual Abuse and Sexual Harassment Investigation Outcomes

Sexual Abuse Investigation Outcomes

Note: these counts should reflect where the investigation is currently (i.e., if a criminal investigation was referred for prosecution and resulted in a conviction, that investigation outcome should only appear in the count for "convicted.") Do not double count. Additionally, for question brevity, we use the term "inmate" in the following questions. Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

Policy # 430.00, page 4 A states: DCR has zero tolerance for any acts of sexual abuse, assault, misconduct, or harassment. Sexual activity between staff and offenders, volunteers or contract personnel and offenders, and offender and offender, regardless of consensual status, is prohibited and subject to administrative and criminal disciplinary sanctions up to and including dismissal and prosecution pursuant to West Virginia Code and DCR Policy and procedure.

Policy # 430.00, page 4 B states: The DCR Director of PREA Compliance along with DCR PREA Coordinators and designated support staff shall make up the Office of PREA Compliance and will have sufficient time and authority to develop, implement, coordinate and oversee DCR efforts to comply with the PREA standards in all facilities.

Policy # 430.00, page 4 B states: Each facility Superintendent within DCR shall designate a PREA Compliance Manager, who will be the second highest ranking person. Those serving as PREA Compliance Managers within the Bureau of Juvenile Services upon the effective date of this policy will remain in effect at the discretion of the Director of PREA Compliance.

Policy # 430.00, in its entirety, addresses the agency's approach to ensure prevention, detection and responding to sexual abuse and sexual harassment. The policy is detailed and straight forward on:

- I. Prevention Planning
- II. Supervision and Monitoring
- III. Staff Training
- IV. Offender Education
- V. Screening for Risk of Sexual Victimization and Abusiveness
- VI. Reporting
- VII. Official Response
- VIII. Investigations
- IX. Staff Discipline
- X. Offender Discipline
- XI. Medical and Mental Health
- XII. Data Collection and Review
- XIII. Audits
- XIV. Pertains Only to Juvenile Facilities

The goal of the Office of PREA Compliance is to continually make every effort to prevent, detect, and respond to such conduct.

PREA Standard§ 115.11 mandates that each facility designate a PREA compliance manager with sufficient time and authority to coordinate the facility's efforts to comply with the PREA standards.

Comments:

The West Virginia Department of Corrections and Rehabilitation takes the Prison Rape Elimination Act very seriously. They have developed the Office of PREA Compliance (statewide) which deals strictly with the components of PREA. This Department is responsible to the Assistant Commissioner, Inspector General Bureau. The Office of PREA Compliance is made up of the Director, two (2) PREA Compliance Officers (one for prisons and jails, the other for juveniles) and a secretary. The two (2) PREA Compliance Officers oversee 36 facility Compliance Managers (sixteen (16) prisons, ten (10) jails and ten (10) juvenile facilities). Each designated Compliance Manager is assigned only the responsibilities associated with PREA and reports to the Director of PREA Compliance and the Superintendent of the facility that they are assigned.

Interviews with individuals noted under 'materials reviewed' indicate that zero-tolerance is the only acceptable behavior for both inmates and staff. Staff interviews support strong knowledge of the expectation of PREA compliance within each facility.

A review of Entry Level Oral Interview questions showed the following:

- What will you do if you see a co-worker breaking the rules or regulations?
- If you see a co-worker making inappropriate comments or behavior in a sexual manner to an inmate, what would you do?
- Have you ever engaged in sexual abuse or sexual misconduct in a prison, jail, lockup, community confinement facility, juvenile facility, or other institution?
- Have you ever been criminally convicted of engaging or attempting to engage in coerced or forced sexual activity, including any type of sexual misconduct or sexual harassment?
- Have you ever been civilly or administratively found liable for engaging in coerced or forced sexual activity, including any type of sexual misconduct or sexual harassment?

Policy # 430.00, page 7 N states: All individuals who may have contact with offenders will be asked to disclose previous misconduct during interviews for hiring, promoting or as part of reviews of current employees. Employees shall have a continuing affirmative duty to disclose any such misconduct. DCR shall not hire, promote or enlist the services of any person who has engaged in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility, or other institution or has been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse or has been civilly or administratively adjudicated to have engaged in such activity. Policy # 430.00, page 7 P states: Consistent with Federal, State, and local law, the DCR must make its best efforts to contact all prior institutional employers for information on substantiated allegations of sexual abuse or any resignation during a pending investigation of an allegation of sexual abuse. Unless prohibited by law or policy, the DCR shall provide information on substantiated allegations of sexual abuse or sexual harassment involving former employees upon receiving a request from an institutional employer from whom the employee has applied to work.

Comments:

Files of staff and contractors/volunteers were reviewed for compliance of this standard. All files reviewed had up-to-date criminal history checks. By utilizing pre-hire criminal background checks, reviewing the questionnaire (noted above), on-going criminal background checks, and human resource standards, it appears that no staff have been hired or promoted with a charge of sexual abuse or sexual harassment. This also holds true for contractors. Backgrounds are completed every four years for all contractors and employees. Backgrounds must be completed before an employee can be promoted.

Comments:

The facility investigators complete administrative investigations. Criminal Investigations are completed by the West Virginia State Police. The written agreement between the agency and the WV State Police is "for the purpose of responding, investigating and if needed legally charging sexual assault/rape perpetrators for incidents that occur while incarcerated at any of the West Virginia Prisons or Work Camps. Partnership will commence on any date set forth and will be managed and maintained in compliance with PREA Standards."

Currently there is no MOU in place with an advocacy agency. However, DCR is currently in negotiations with WVFRIS. Qualified staff are available to provide emotional support if needed.

The interview with the facility PREA Investigator verified the protocol taken in evidence collection. The interviews with staff showed that they were aware of the format to collect evidence if required to do so. Facility supervisors and the Health Services Administrator stated that no victim is ever charged for any examination, medical follow-up or advocacy services (to include psychiatric care) related to sexual abuse or harassment. Additionally, all stated that forensic (PREA) examinations do not occur at the facility. The facility has had no SANE exams during the 12 months preceding the audit.

The PREA Checklists are concise and well maintained.

Comments:

The PREA Screening Instrument (Initial and Reassessment) was reviewed and contains all the elements of 115.41 (d) (e). The completion of the Initial Assessment occurs while the inmate is still in booking. The Superintendent has directed the Counselors at the facility to ensure completion of the Reassessments within the allotted time frames. The Office of PREA Compliance has completed a format for the completion of these Reassessments, to include when additional reassessments should occur.

When Assessments and Reassessments are completed, the forms are placed in the inmate files. These files are kept behind a locked door in the records room with limited access. Potential victim or predators are noted, an "Alert" is posted in their computer system. Staff that has access to the "Alerts", is on a need-to-know basis, and are generally used for housing assignments, work assignment, and program assignments.

Initial Assessments are completed within 72 hours for arrival to the facility and a reassessment is completed within (30) days, earlier if a significant event occurs. The auditor reviewed assessments and reassessments; all were completed in a timely manner.

In deciding whether to assign a transgender or intersex offender to a facility for male or female offenders, and in making other housing and programming assignments, the DCR shall consider on a case-by-case basis whether a placement would ensure the offender's health and safety, and whether the placement would present management or security problems.</p> <p>Policy # 430.00, page 12 J states: All staff, volunteers, and contractors will communicate with, treat, and talk about any offender who is LGBTI, or perceived to be LGBTI, in a professional and respectful manner. The DCR may apply otherwise-applicable time limits to any portion of a grievance that does not allege an incident of sexual abuse. The DCR shall not require an offender to use any informal grievance process, or to otherwise attempt to resolve with staff, an alleged incident of sexual abuse. Nothing in this section shall restrict the DCR's ability to defend against an offender lawsuit on the ground that the applicable statute of limitations has expired. The agency shall ensure that:

1. An inmate who alleges sexual abuse may submit a grievance without submitting it to a staff member who is the subject of the complaint, and.
2. Such grievance is not referred to a staff member who is the subject of the complaint.

Policy # 430.00, page 14 E states: DCR shall issue a final agency decision on the merits of any portion of a grievance alleging sexual abuse within 90 days of the initial filing of the grievance.

Policy # 430.00, page 14 F states: Third parties, including fellow offenders, staff members, family members, attorneys, and outside advocates, are permitted to assist offenders in filing reports or grievances and requests for administrative remedies relating to allegations of sexual abuse. Third parties are also permitted to file such requests on behalf of offenders. CID will discuss the allegation with the alleged victim and proceed with an investigation if the allegation occurred in a correctional setting.

Policy # 430.00, page 14 G states: After receiving a PREA emergency grievance alleging an offender is subject to substantial risk of imminent sexual abuse, it must be forwarded to the Superintendent or designee for immediate action. An initial response will be provided within 48 hours and a final decision shall be within 5 calendar days. Policy # 430.00, page 14 H states: Offenders may be disciplined for filing a grievance related to alleged sexual abuse only where the DCR demonstrates that the offender filed the grievance in bad faith.

(1) The agency issues a final agency decision on the merits of any portion of a grievance alleging sexual abuse within 90 days of the initial filing of the grievance. (2) Computation of the 90-day time period does not include time consumed by

inmates in preparing any administrative appeal. (3) The agency may claim an extension of time to respond, of up to 70 days, if the normal time period for response is insufficient to make an appropriate decision. The agency shall notify the inmate in writing of any such extension and provide a date by which a decision will be made. (4) At any level of the administrative process, including the final level, if the inmate does not receive a response within the time allotted for reply, including any properly noticed extension, the inmate may consider the absence of a response to be a denial at that level.

The inmate handbook states: If you have been assaulted or witness an assault, or if you are a victim of sexual abuse or witnessed inmate-on-inmate or staff sexual misconduct report it to any WVDCR staff, you may fill out a grievance form, write a note, request to see the nurse or counselor; or you may use the Confidential Sexual Abuse Hotline by dialing *9078 on the inmate phones. Policy # 430.00, page 16 A states: Protection of witnesses and the victim shall be paramount throughout the investigation process. The Office of PREA Compliance, in conjunction with the facility PCM shall ensure that an administrative or criminal investigation is completed for all allegations of sexual abuse and sexual harassment.

1. Individuals conducting these investigations will receive specialized training.
2. Staff members, as designated by the Superintendent, shall do an inquiry on offender-on-offender harassment allegations.
3. CID investigators will conduct investigations on all staff on offender allegations and offender-on-offender sexual abuse allegations.
4. CID investigators will be primarily responsible for contacting and referring criminal allegations and assisting as needed with the investigation.
5. Investigations will be promptly, thoroughly, and objectively completed for all allegations, including third-party and anonymously reported allegations. The reports and all related documentation are to be entered in the appropriate tracking system.
6. Staff having any knowledge of or reason to suspect that sexual misconduct has taken place, is subject to questioning by person(s) investigating such allegations. Failure to cooperate with the investigation, such as withholding known information, withholding evidence or giving false statements will result in disciplinary action.

Policy # 430.00, page 17 G states: Investigators shall:

1. Gather and/or preserve direct and circumstantial evidence, including any available physical and DNA evidence and any available electronic monitoring data.
2. Interview alleged victims, suspected abusers, and witnesses.
3. Review prior complaints and reports of sexual abuse involving the suspected abuser.
4. Determine whether staff actions or failures to act contributed to the abuse and shall be documented in the reports.

Policy # 430.00, page 8 – 9 F states: In addition to the general training provided to all employees pursuant to § 115.31, the DCR shall ensure that, to the extent the DCR itself conducts sexual abuse investigations, its investigators have received training in conducting such investigations in confinement settings. Corrections Investigations Division (CID) investigative staff shall receive additional specialized training on conducting sexual abuse investigations in confinement settings.

Documentation will be filed in the employee training folder and a copy will be sent to the Office of PREA Compliance. This specialized training will include but is not limited to:

1. Interviewing sexual abuse victims,
2. Proper use of Miranda warnings and the Garrity rule,
3. Sexual abuse evidence collection in confinement settings,
4. The criteria and evidence required to substantiate a case for administrative action or prosecutorial referral.

Policy # 430.00, page 17 J states: When the quality of evidence appears to support criminal prosecution, the DCR shall conduct compelled interviews only after consulting with prosecutors to determine whether compelled interviews may be an

obstacle for subsequent criminal prosecution. The credibility of an alleged victim, suspect, or witness shall be assessed on an individual basis and shall not be determined by the person's status as an offender or staff. The DCR shall not require an offender who alleges unwanted forced sexual abuse to submit to a polygraph examination or other truth telling device as a condition of proceeding with the investigation of such an allegation. Investigations shall not be terminated solely because the source of the allegation recants the allegation.

Policy # 430.00, page 17 H states: The DCR shall impose no standard higher than a preponderance of the evidence in determining whether allegations of sexual abuse or sexual harassment are substantiated.

Policy # 430.00, page 16 B states: Administrative investigations shall include an effort to determine whether staff actions or failures to act contributed to the abuse; and shall be documented in written reports that include a description of the physical and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings.

Policy # 430.00, page 16 C states: Criminal investigations shall be documented in a written report that contains a thorough description of physical, testimonial, and documentary evidence and attaches copies of all documentary evidence where feasible. Substantiated allegations of conduct that appears to be criminal shall be referred for prosecution.

Policy # 430.00, page 16 D states: The DCR shall retain all written reports for as long as the alleged abuser is incarcerated or employed by the DCR, plus five years.

Policy # 430.00, page 18 A states: The staff member shall be subject to disciplinary sanctions up to and including termination for violating DCR sexual abuse or sexual harassment policies, termination shall be the presumptive disciplinary sanction for staff who has engaged in sexual abuse. Disciplinary sanctions for violations of DCR policies relating to sexual abuse or sexual harassment (other than actually engaging in sexual abuse) shall be commensurate with the nature and circumstances of the acts committed, the staff member's disciplinary history, and the sanctions imposed for comparable offenses by other staff with similar histories. All terminations for violations of sexual abuse or harassment policies, or resignations by staff that would have been terminated if not for their resignation, will be documented and reported to law enforcement agencies, unless the act was clearly not criminal, and to any relevant licensing bodies. The departure of the alleged abuser or victim from the employment or control of the DCR shall not provide a basis for terminating an investigation.

Policy # 430.00, page 17 K states: At the conclusion of the investigation, the investigator will prepare an investigative report that documents a description of the physical and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings and all documentary evidence when feasible. The investigative findings will indicate whether the evidence supports a finding that sexual abuse has occurred (substantiated), the allegation is false (unfounded), or the evidence is inconclusive (unsubstantiated). If the case has not already been referred for criminal prosecution, the Investigator will refer substantiated allegations of conduct that appears to be criminal for prosecution in the county where the assault occurred. If any State entity or Department of Justice component conducts investigations shall do so pursuant to the above requirements.

Policy # 430.00, page 16 E states: When an outside agency investigates sexual abuse, the DCR shall request that the investigating agency follow the Medical and Mental Health requirements of this policy. CID shall endeavor to remain informed about the progress of the investigation and regularly update Office of PREA Compliance throughout the investigative progress.

Comments:

The facility uses curriculum written for jail investigators. Such as:

- PREA – Report Writing; Prepared by D.L. Rosier, Jr., Former Deputy Director; DMAPS Investigation Unit.
- Miranda, Garrity, PREA and Such; Prepared by Michael W. Parker, ESQ.; Randolph County Prosecuting Attorney.
- Interview of Sexual Assault Victims in a Confined Setting; Prepared by D.L. Rosier, Jr., Former Deputy Director; DMAPS Investigation Unit.

All investigators have been through the above training, the required facility training and the NIC investigators curriculum. Training was verified by review of the training files.

A file review of all PREA allegations over the last twelve months showed detailed documentation of evidence (including electronic monitoring), interviews (alleged victim/perpetrator and witnesses) and pertinent data. Documentation was noted by date and time; video copies were attached to the files and copies of reports and allegations. Interviews are tape recorded. The file format was excellent.

The interview with the investigator included discussion on the format for making a referral for prosecution. (Note: there has been one finding during this past twelve (12) months that rose to the level of criminal prosecution.) Credibility of witnesses is based upon the findings, not on their legal status.

Closed investigation files remain in the investigator office.

The Huttonsville Correctional Center was previously audited for compliance with the PREA Standards January 2, 2020.</p>

West Virginia Division of Corrections and Rehabilitation contracts for medical care and at this facility service are provided by Wexford. The West Virginia Division of Corrections and Rehabilitation also contracts with county facilities. Policy requires that county facilities operated on behalf of the Department (housing state offenders) must meet the same audit requirements. These entities are responsible for scheduling and funding their audits. All audits are required to be certified by the Department of Justice and each facility will bear the burden of demonstrating compliance with the federal standards. A copy of the final report will be submitted to the Department's Director of PREA Compliance upon completion of the audit and must be conducted every three years.

The facility posted the Notices of PREA Audit forty-five (45) days before the on-site portion of the audit with the Auditor's contact information in areas of the facility accessible to inmates, staff, contractors, volunteers and visitors six weeks prior to the on-site audit. These were observed in living units and other areas accessible to staff, inmates, contractors, volunteers and visitors. Forty-five (45) days prior to the onsite audit the auditor and PREA Compliance Manager communicated via email to discuss the audit process. Communications with the PREA Compliance Manager were often and productive.

The information contained on the uploaded PAQ contained the WVDCR policies applicable to the standards as well as documentation to help the auditor understand the mission of the facility, the layout of the facility, and facility operations, including the staffing required for the population of maximum and medium security adult males. The auditor provided the facility an extensive list of documents that the auditor would be asking for on-site. The facility was always responsive and helpful and complied with any request. During the on-site audit the facility was requested to provide documentation and the documentation was readily available. During the report writing phase, the auditor requested additional documents, the information was provided promptly.

The on-site audit of the Huttonsville Correctional Center was conducted by one Auditor, certified in both Juvenile and Adult Standards. During the on-site audit, the auditor was provided complete and unfettered access to all areas of the facility and to all the inmates, staff, and contractors. The auditor was able to move about the facility any time needed. Adequate space was provided for auditor to conducted interviews in complete privacy with staff, inmates, and contractors. During the on-site tour, the auditor tested phones to ensure they were operational. Dialing instructions were posted by the phones. The auditor placed a call to the PREA Unit's Hotline number, and received a conformation receipt of the call. The auditor was able to observe the intake and risk screening processes, during the on-site portion of the audit. The auditor informally interviewed inmates and staff during the site tour. The auditor conducted informal interviews with staff, contractors, and inmates during the walk-through of the facility.

The audit observed the secure file rooms containing investigations, intake risk screenings, and medical and mental health files. Staff confirmed during conversation that the Inmate Database can only be accessed by staff that has permission to view the information on a need-to-know basis.

The Notice of PREA Audit was observed posted throughout the facility and in the living units. The notice contained contact information for the auditor. During the site review of the facility the auditor informally talked with inmates and staff. Prior to the onsite portion of the audit the auditor received no correspondences from inmates, contractors, visitors, staff, or interested outside parties.

The auditor reviewed inmate files, made observations throughout the on-site audit, thoroughly reviewed large samples of documentation, tested processes (including checking victim/aggressor assessment time periods), interviewed staff, contractors and inmates. Multiple personnel files were reviewed to assess the hiring process and background checks.

The auditor and the PREA Compliance Manager continued to work together following the on-site phase of the audit, when additional information was needed; all information requested was provided in a timely manner.

Comments:

The auditor was able to view the entire facility by physically walking the facility. Staff was cooperative and assisted with helping the auditor complete private interviews. All requested documentation was provided. Postings of the on-site audit were observed throughout the facility. Staff was accommodating during inmate interviews; staff was forthcoming during interviews, formal and informal. The auditor was accompanied during the site tour by the West Virginia Director of PREA Compliance and the West Virginia PREA Coordinator. Locked doors were open when requested by the auditor. The facility was clean and organized.
