<b>Targeted Inmate/Resident/Detainee Interviews</b>	
58. Enter the total number of <b>TARGETED INMATES/RESIDENTS/DETAINEES</b> who were interviewed:	12
<p>As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".</p>

## SITE REVIEW AND DOCUMENTATION SAMPLING

### Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

<p><b>84. Did you have access to all areas of the facility?</b></p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
---	---

### Was the site review an active, inquiring process that included the following:

<p><b>85. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?</b></p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
<p><b>86. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?</b></p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
<p><b>87. Informal conversations with inmates/residents/detainees during the site review (encouraged, not required)?</b></p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
<p><b>88. Informal conversations with staff during the site review (encouraged, not required)?</b></p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>

<p><b>89. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).</b></p>	<p>The auditor informally interviewed inmates during the site tour. The auditor conducted informal interviews with staff, contractors, and inmates during the walk-through of the facility.</p> <p>During the on-site tour, the auditor tested phones to ensure they were operational. Dialing instructions were posted by the phones. The facility posted the Notices of PREA Audit forty-five (45) days before the on-site portion of the audit with the Auditor's contact information in areas of the facility accessible to inmates, staff, contractors, volunteers and visitors six weeks prior to the on-site audit. These were observed in living units and other areas accessible to staff, inmates, contractors, volunteers and visitors.</p>
--	--

**Documentation Sampling**

Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.

<p><b>90. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?</b></p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
--	---

<p><b>91. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).</b></p>	<p>The information contained on the uploaded PAQ contained the WVDCR policies applicable to the standards as well as documentation to help the auditor understand the mission of the facility, the layout of the facility, and facility operations, including the staffing required for the population of maximum and medium security adult males. The auditor provided the facility an extensive list of documents that the auditor would be asking for on-site. The facility was always responsive and helpful and complied with any request. During the on-site audit the facility was requested to provide documentation and the documentation was readily available. During the report writing phase, the auditor requested additional documents, the information was provided promptly.</p>

**SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY**

**Sexual Abuse and Sexual Harassment Allegations and Investigations Overview**

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term "inmate" in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

92. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual abuse allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
<b>Inmate-on-inmate sexual abuse</b>	6	0	6	0
<b>Staff-on-inmate sexual abuse</b>	3	0	3	0
<b>Total</b>	9	0	9	0

93. Total number of SEXUAL HARASSMENT allegations and investigations overview during the 12 months preceding the audit, by incident type:

<b>Inmate-on-inmate sexual harassment</b>	1	0	1	0
<b>Staff-on-inmate sexual harassment</b>	1	0	1	0
<b>Total</b>	2	0	2	0

## Sexual Abuse and Sexual Harassment Investigation Outcomes

### Sexual Abuse Investigation Outcomes

Note: these counts should reflect where the investigation is currently (i.e., if a criminal investigation was referred for prosecution and resulted in a conviction, that investigation outcome should only appear in the count for "convicted.") Do not double count. Additionally, for question brevity, we use the term "inmate" in the following questions. Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

94. Criminal SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

	Ongoing	Referred for Prosecution	Indicted/Court Case Filed	Convicted/Adjudicated	Acquitted
<b>Inmate-on-inmate sexual abuse</b>	0	0	0	0	0
<b>Staff-on-inmate sexual abuse</b>	0	0	0	0	0
<b>Total</b>	0	0	0	0	0

**95. Administrative SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:**

<b>Inmate-on-inmate sexual abuse</b>	0	0	6	0
<b>Staff-on-inmate sexual abuse</b>	0	1	2	0
<b>Total</b>	0	1	8	0

**Sexual Harassment Investigation Outcomes**

Note: these counts should reflect where the investigation is currently. Do not double count. Additionally, for question brevity, we use the term "inmate" in the following questions. Materials Reviewed: WV Inspector General Table of Organization, WVDCR Organizational Chart, Mount Olive Correctional Complex Organization Chart, Policy Directive Number 430.00; Subject – Prison Rape Elimination Act Compliance (PREA)

Interviews:

Director of Office of PREA Compliance  
Agency's PREA Coordinator  
Agency's PREA Compliance Manager  
Investigator  
Commissioner and Assistant Commissioner

Policy # 430.00, pages 2 – 4 include definitions: Contractors, Director of PREA Compliance, Exigent Circumstances, Gender Nonconforming, Intersex, Juvenile, Juvenile Facility, LGBTI, Medical Practitioner, Mental Health Practitioner, Offender, Office of PREA Compliance, PREA Coordinator, Preponderance of the Evidence, Sexual Abuse, Sexual Harassment, Staff, Staff Sexual Misconduct, Substantiated Allegation, Transgender, Unfounded Allegation, Unannounced Rounds, Unsubstantiated Allegation, Victim, and Volunteer.

Policy # 430.00, page 4 A states: DCR has zero tolerance for any acts of sexual abuse, assault, misconduct, or harassment. Sexual activity between staff and offenders, volunteers or contract personnel and offenders, and offender and offender, regardless of consensual status, is prohibited and subject to administrative and criminal disciplinary sanctions up to and including dismissal and prosecution pursuant to West Virginia Code and DCR Policy and procedure.

Policy # 430.00, page 4 B states: The DCR Director of PREA Compliance along with DCR PREA Coordinators and designated support staff shall make up the Office of PREA Compliance and will have sufficient time and authority to develop, implement, coordinate and oversee DCR efforts to comply with the PREA standards in all facilities.

Policy # 430.00, page 4 B states: Each facility Superintendent within DCR shall designate a PREA Compliance Manager, who will be the second highest ranking person. Those serving as PREA Compliance Managers within the Bureau of Juvenile Services upon the effective date of this policy will remain in effect at the discretion of the Director of PREA Compliance.

Policy # 430.00, in its entirety, addresses the agency's approach to ensure prevention, detection and responding to sexual abuse and sexual harassment. The policy is detailed and straight forward on:

- I. Prevention Planning
- II. Supervision and Monitoring
- III. Staff Training
- IV. Offender Education
- V. Screening for Risk of Sexual Victimization and Abusiveness
- VI. Reporting
- VII. Official Response
- VIII. Investigations
- IX. Staff Discipline
- X. Offender Discipline
- XI. Medical and Mental Health
- XII. Data Collection and Review
- XIII. Audits
- XIV. Pertains Only to Juvenile Facilities

The goal of the Office of PREA Compliance is to continually make every effort to prevent, detect, and respond to such conduct. PREA Standard§ 115.11 mandates that each facility designate a PREA compliance manager with sufficient time and authority to coordinate the facility's efforts to comply with the PREA standards.

Comments:

The West Virginia Department of Corrections and Rehabilitation takes the Prison Rape Elimination Act very seriously. They have developed the Office of PREA Compliance (statewide) which deals strictly with the components of PREA. This Department is responsible to the Assistant Commissioner, Inspector General Bureau. The Office of PREA Compliance is made up of the Director, two (2) PREA Compliance Officers (one for prisons and jails, the other for juveniles) and a Secretary. The two (2) PREA Compliance Officers oversee 36 facility Compliance Managers (sixteen (16) prisons, ten (10) jails and ten (10) juvenile facilities). Each designated Compliance Manager is assigned only the responsibilities associated with PREA and reports to the Director of PREA Compliance and the Superintendent of the facility that they are assigned.

Interviews with individuals noted under 'materials reviewed' indicate that zero-tolerance is the only acceptable behavior for both inmates and staff. Staff interviews support strong knowledge of the expectation of PREA compliance within each facility.

Site Review:

Since August 20, 2012, or last PREA audit, whichever is later: The average daily number of inmates: 915

The average daily number of inmates on which the staffing plan was predicated: 1013

Policy # 430.00, page 5 A states: DCR shall ensure that each of its facilities develops, documents and makes its best efforts to comply with the PREA staffing plan that provides for adequate levels of staffing, and, where applicable, video monitoring, to protect offenders against sexual abuse. In calculating adequate staffing levels and determining the need for video monitoring, facilities shall take into consideration:

1. Generally accepted detention and correctional practices.
2. Any judicial finding of inadequacy.
3. Any findings of inadequacy from federal investigative agencies.
4. Any findings of inadequacy from internal or external oversight bodies.
5. All components of the facility's physical plant (including blind spots or areas where staff or offenders may be isolated).
6. The composition of the offender population.
7. The number and placement of supervisory staff.
8. Facility programs occurring on various shifts.
9. Any applicable State or local laws, regulations or standards.
10. Any prevalence of substantiated and unsubstantiated incidents of sexual abuse.
11. Any other relevant factors.

Policy # 430.00, page 5 B states: In circumstances where the staffing plan is not complied with, the Facility PREA Compliance Manager or designee shall document the noncompliance, in writing, and justify all deviations from the plan. This documentation will be forwarded to the Facility's Superintendent, appropriate Assistant Commissioner and the Office of PREA Compliance.

Policy # 430.00, page 5 C states: Whenever necessary, but no less frequently than once a year, the Facility PREA Compliance Manager from each facility, in consultation with the Office of PREA Compliance, shall assess, determine and document whether adjustments are needed to:

These rounds will be conducted in all areas of the facility, specifically in all offender living areas. Completion of unannounced rounds shall be documented in the appropriate database.

Policy # 430.00, page 6 E states: Any staff member found to be alerting other staff that these rounds are occurring will be subject to disciplinary action unless such announcement is related to the legitimate operational functions of the facility.

The policy and practice of having intermediate-level or higher-level supervisors conduct and document unannounced rounds to identify and deter staff sexual abuse and sexual harassment. These unannounced rounds occurred on night shifts as well as day shifts. The policy also prohibited staff from alerting other staff members that these supervisory rounds were occurring. The PREA Compliance Managers at both the Slayton Work Camp and Mount Olive Correctional Complex report that these rounds were regularly completed over the last year.

Comments:

March 16, 2022, Staffing Plan states shortages of staff occur due to vacancies, hospital duty, transports, vacation, Doctor's care and call-offs. The facilities response to staff call-offs, sick leave, military leave, etc. is to "freeze" staff for overtime. Staffing plans are reviewed annually. The facility PREA Compliance Manager shared that he is involved with the Staffing Plan. He reviews it with the Director of PREA Compliance, the PREA Coordinator and Superintendent before it is finalized. There are no judicial or federal investigative findings of inadequacy. The facility reports there have been no deviations from the Staffing Plan during the 12 months preceding the audit. The facility uploaded numerous copies of unannounced rounds for the auditor's review.

The percent of contracts for services where criminal background record checks were conducted on all staff covered in the contract who might have contact with inmates: 100%

A review of Entry Level Oral Interview questions showed the following:

- What will you do if you see a co-worker breaking the rules or regulations?
- If you see a co-worker making inappropriate comments or behavior in a sexual manner to an inmate, what would you do?
- Have you ever engaged in sexual abuse or sexual misconduct in a prison, jail, lockup, community confinement facility, juvenile facility, or other institution?
- Have you ever been criminally convicted of engaging or attempting to engage in coerced or forced sexual activity, including any type of sexual misconduct or sexual harassment?
- Have you ever been civilly or administratively found liable for engaging in coerced or forced sexual activity, including any type of sexual misconduct or sexual harassment?

Policy # 430.00, page 7 N states: All individuals who may have contact with offenders will be asked to disclose previous misconduct during interviews for hiring, promoting or as part of reviews of current employees. Employees shall have a continuing affirmative duty to disclose any such misconduct. DCR shall not hire, promote or enlist the services of any person who has engaged in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility, or other institution or has been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse or has been civilly or administratively adjudicated to have engaged in such activity. The DCR shall consider any incidents of sexual harassment in determining whether to hire or promote anyone, or enlist the services of any contractor, who may have contact with offenders. Material omissions regarding such misconduct, or the provision of materially false information, shall be grounds for termination.

Policy # 430.00, page 7 O states: A background investigation will be completed before hiring or promoting employees, enlisting the services of contractors, interns or volunteers. The DCR shall conduct criminal background checks of all employees, volunteers, interns and contractors every four years.

Policy # 430.00, page 7 P states: Consistent with Federal, State, and local law, the DCR must make its best efforts to contact all prior institutional employers for information on substantiated allegations of sexual abuse or any resignation during a pending investigation of an allegation of sexual abuse. Unless prohibited by law or policy, the DCR shall provide information on substantiated allegations of sexual abuse or sexual harassment involving former employees upon receiving a request from an institutional employer from whom the employee has applied to work.

Comments:

Files of staff and contractors/volunteers were reviewed for compliance with this standard. All files reviewed had up-to-date criminal history checks. By utilizing pre-hire criminal background checks, reviewing the questionnaire (noted above), on-going criminal background checks, and human resource standards, it appears that no staff has been hired or promoted that has had an incident of sexual abuse or sexual harassment. This also holds true for contractors and volunteers. The WVDCR policy requires criminal history checks to be completed every four (4) years for current employees, contractors, and volunteers.

Policy # 430.00, page 16 – 17 F states: Administrative and criminal investigations shall be conducted in accordance with best practice for the investigation of sexual assault and shall follow a uniform evidence protocol that maximizes the potential for obtaining usable physical evidence for administrative procedures and criminal prosecutions. The protocol shall be adapted from OJ: otherwise based on the most recent edition of the U.S. Department of Justice’s Office on Violence Against Women publication, “A National Protocol for Sexual Assault Medical Forensic Examinations, Adults/Adolescents,” or similarly comprehensive and authoritative protocols developed after 2011.

Policy # 430.00, page 17 I states: As requested by the victim, the victim advocate, qualified agency staff member, or qualified community-based organization staff member shall accompany and support the victim through the forensic medical examination process and investigatory interviews and shall provide emotional support, crisis intervention, information, and referrals.

Policy # 430.00, page 17 E states: When an outside agency investigates sexual abuse, the DCR shall request that the investigating agency follow the Medical and Mental Health requirements of this policy. CID shall endeavor to remain informed about the progress of the investigation and regularly update Office of PREA Compliance throughout the investigative progress.

Policy # 430.00, page 20 B states: Victims of sexual abuse shall receive timely, unimpeded access to emergency medical treatment and crisis intervention services, the nature and scope of which are determined by medical and mental health practitioners according to their professional judgment. All victims of sexual abuse shall be offered access to forensic medical examinations at the facility or an outside facility, such examinations shall be performed by a Sexual Assault Forensic Examiners (SAFE’s) or Sexual Assault Nurse Examiners (SANE’s) where possible. The DCR shall document efforts to provide SAFE’s or SANE’s if one is not available, the examination can be performed by other qualified medical practitioners. Treatment shall be provided to the victim without financial cost and regardless of whether the victim names the abuser or cooperates with any investigation arising out of the incident.

Policy # 430.00, page 20 C states: The facility will use the list of local hospitals that employ a SANE (Sexual Assault Nurse Examiner), to determine the appropriate medical provider to transport to. Any refusal by the offender to undergo the forensic exam must be documented. If no qualified medical or mental health practitioners are on duty at the time a report of recent abuse is made, first responders shall take preliminary steps to protect the victim and shall immediately notify the appropriate medical and mental health practitioners.

Policy # 430.00, page 20 D states: The DCR shall attempt to make available to the victim a victim advocate from a rape crisis center. If a rape crisis center is not available to provide victim advocate services, the DCR shall provide a qualified staff member to provide these services. Agencies shall document efforts to secure services from rape crisis centers. If requested by the victim, a victim advocate, qualified DCR staff member, or qualified community-based organization staff member shall accompany and support the victim through the forensic medical examination process and investigatory interviews and shall provide emotional support, crisis intervention, information, and referrals. To the extent the DCR itself is not responsible for investigating allegations of sexual abuse the DCR shall request that the investigating agency follow the requirements within policy.

Comments:

The facility investigators complete administrative investigations. Criminal Investigations are completed by the West Virginia State Police. The written agreement between the agency and the WV State Police is “for the purpose of responding, investigating and if needed legally charging sexual assault/rape perpetrators for incidents that occur while incarcerated at any of the West Virginia Prisons or Work Camps. Partnership will commence on any date set forth and will be managed and maintained in compliance with PREA Standards.”

Facility supervisors and the Health Services Administrator stated that no victim is ever charged for any examination, medical follow-up or advocacy services (to include psychiatric care) related to sexual abuse or harassment. Additionally, all stated that forensic (PREA) examinations do not occur at the facility. The PREA Checklists are concise and well maintained.

Currently WVDCR does not have a MOU with an outside community-based organization to provide advocate services. If a victim of sexual abuse requests an advocate the facility arrange an advocate for the inmate. The facility contracts with PSI-Med who provides mental health services; the contractor has qualified staff members who have been trained to perform advocate services for victims of sexual abuse.

A memo dated June 2022 was provided by the Director of PREA Compliance for the state of West Virginia stating: “Prior to the Correctional systems in WV being consolidated, the Division of Juvenile Services, Regional Jail authority and the Division of Corrections each had an agreement in place for outside support services. Each agency partnered with the West Virginia Foundation for Rape Information & Services (FRIS). While reviewing these agreements, I discovered they were inconsistent in terms of services provided versus the costs associated with the services. In early 2019 we began negotiating with FRIS to develop an agreement to encompass Jails, Prisons and Juvenile facilities. We have met numerous times and continue to make attempts to enter an agreement that both parties are amenable to. In late 2021 we discovered some grant funding that we thought would fund the agreement. However, FRIS determined that the funds obtained would cover the cost of an administrator to manage the agreement between FRIS and DCR. This again left us looking for another source of funding for services. We continue to negotiate with FRIS and work toward an agreement. While we do not have an all-encompassing agreement in place, the local rape crisis centers are receptive to our requests and continue to assist us as needed. At this time, we rely on our mental health staff to assist with these services as needed.”

Policy # 430.00, page 11 D/E states: The initial screening shall consider prior acts of sexual abuse, prior convictions for violent offenses and history of prior institutional violence or sexual abuse, as known to the DCR, in assessing offenders for risk of being sexually abusive. This information shall be ascertained through:

- J. Conversations with the offenders during the intake process
2. Medical and mental health screenings.
3. During classification assessments.
4. By reviewing court records, case files, facility behavioral records, and other relevant documentation from the offender's files.

Policy # 430.00, page 11 F states: Facility staff and contractors involved in the assessment process will not disseminate responses to the screening questions or other sensitive information which may be exploited to the offender's detriment by staff or other offenders. Offenders determined to be at risk for sexual victimization if assigned to general population will be identified. This information will be documented in the offender's file, and in the appropriate database. Offenders may not be disciplined for refusing to answer or for not disclosing complete information. If an offender refuses to disclose the information requested, housing placement should be based on a review of the offender's records.

Policy # 430.00, page 11 G states: The Superintendent shall designate specific staff to complete PREA reassessments. PREA reassessment shall be completed within a set time period, not exceed 30 days from the offender's arrival at the facility. The facility will reassess the offender's risk of victimization or abusiveness based upon any additional, relevant information received by the facility since the intake screening.

Comments:

PREA Screening Instrument (Initial and Reassessment) was reviewed and contains all the elements of 115.41 (d) I. The completion of the Initial Assessment occurs while the inmate is still in intake. The Superintendent has directed the Intake staff at the facility to ensure completion of the Reassessments within the allotted time frames. The Office of PREA Compliance has completed a format for the completion of these Reassessments, to include when additional reassessments should occur. When Assessments and Reassessments are completed, the forms are placed in the inmate files and noted in the data base. These files are kept behind a locked vault (limited access). When any keep separates and/or potential victim or predators are noted, an "Alert" is posted in their computer system. The auditor reviewed assessments and reassessment screening; most were completed within a timely manner.

Site Review: The auditor was able to observe the intake process; The auditor walked through in depth details of intake process with staff.

Policy 17001, page 16, #5 states: Inmates determined to be at risk for assignment to population will be identified. This information will be documented in the inmate's file, and in the inmate Information Management System.

Policy 13001, page 1, #4 states: The inmate's housing assignment, classification and subsequent medical treatment will be determined at the time of booking, and be based, in part, upon information contained on the Receiving Screening Form. A) Medical staff will immediately notify the Shift Supervisor of inmates determined, through risk screening and/or observation; to be suicidal, risk of suicide, risk of sexual victimization, transgender or intersex inmates, or whether the inmate has mental/physical/ developmental disabilities requiring other than general population classification.

Policy 17001, page 23, Procedure N – Inmate Classification/Housing states: 3) Incoming inmates will be housed in accordance with classification and the results of the initial assessment of the inmate's risk of sexual violence vulnerability and risk of abusiveness. Initial classification shall be approved by the Booking Supervisor. A classification sheet shall be forwarded to the classification committee in accordance with Policy Number 20001. A potential predator will not be housed with a potential victim. The goal is to keep separate those inmates at high risk for being sexually victimized from those at high risk of being sexually abusive. 4) Inmates determined to be at risk for assignment to population will be identified. This information will be documented in the inmate's file, and in the inmate Information Management System.

Policy Directive #411, page 8, Procedure H – Programs and Services states: 1) On a case-by- case basis, WVDCR shall make programming assignments and shall provide each transgender inmate the opportunity for non-discriminatory participation in the below listed programs and services. An inmate's participation in programs and services shall be 2) consistent with his/her classification and shall not conflict with safe, secure, and orderly operation of the facility.

Policy Directive #411, page 5/6, Procedure E – Finalized Housing states: 1) In all instances where the Classification Committee and the inmate agree that the inmate should be housed based on the person's sex identified at birth and not their gender identity, the person will be housed accordingly. 2) If the Classification Committee recommends that the inmate be housed based on their sex identified at birth, but the inmate believes she or he will be safer housed based on their gender identity, the recommendation will be sent to the WVDCR PREA Coordinator who will set up the Administrative Gender Review Committee no later than 15 days. The Administrative Gender Review Committee will review the recommendations and will make the housing determination. 3) If the Classification Committee recommends that the inmate be housed based on their gender identity and the inmate agrees, the recommendation will be sent to the WVDCR PREA Coordinator who will set up the Administrative Gender Review Committee within no more than 15 days. The Administrative Gender Review Committee will review the recommendations and will make the housing determination. 4) In all such cases, both before and after a final housing determination has been made, the inmate will be housed in the least restrictive means possible (unless the inmate affirmatively request protective custody, or if the Classification Committee feels the inmate needs to be placed on administrative segregation for his or her own safety).

Policy # 430.00, page –1 - 12 H states: The PREA screening assessment information shall be used to make decisions regarding, housing, bed, work, education, and program assignments. The goal of the DCR is to keep offenders that are at high risk for being sexually victimized from those at high risk of being sexually abusive. The facility shall make individualized determinations about how to ensure the safety of each offender;

Policy # 430.00, page 12 I states: The DCR shall not consider Lesbian, gay, bisexual, transgender, or intersex identification or status as an indicator of likelihood of being sexually abusive. The facility shall consider the offenders' health and safety when determining placement. In deciding whether to assign a transgender or intersex offender to a facility for male or female offenders, and in making other housing and programming assignments, the DCR shall consider on a case-by-case basis

whether a placement would ensure the offenders' health and safety, and whether the placement would present management or security problems.

Policy # 430.00, page 12 J states: All staff, volunteers, and contractors will communicate with, treat, and talk about any offender who is LGBTI, or perceived to be LGBTI, in a professional and respectful manner. Placement and programming assignments for each transgender or intersex offender shall be reassessed twice a year. Staff will take into consideration the facility population, staffing patterns, physical layouts, and legal requirements. LGBTI offenders will not be placed in dedicated facilities or units solely based on such identification or status. A transgender or intersex offenders' own views with respect to his or her own safety shall be given thoughtful consideration. Transgender and intersex offenders shall be given the opportunity to shower separately from other offenders.

Comments:

When Assessments and Reassessments are completed, the forms are placed in the inmate files. These files are kept behind a locked door (limited access). When any keep separates and/or potential victim or predators are noted, an "Alert" is posted in computer system. Only supervisors have access to the "Alerts," which are used for housing assignments. (Note: only supervisors can make housing assignments or changes.)

A committee was formed at the statewide level to assist in making decisions regarding transgender/intersex housing, programming, and placement. Health and safety are the primary concern for inmates. Identified inmates are not housed in dedicated facilities, or wings solely because of their sexual orientation, genital status, or gender identity. The committee will also complete a review of each transgender and intersex inmate two times per year.

Comments:

The facility uses curriculum written for jail investigators. Such as:

- PREA – Report Writing; Prepared by D.L. Rosier, Jr., Deputy Director; DMAPS Investigation Unit
- Miranda, Garrity, PREA and Such; Prepared by Michael W. Parker, ESQ.; Randolph County Prosecuting Attorney
- Interview of Sexual Assault Victims in a Confined Setting; Prepared by D.L. Rosier, Jr., Deputy Director; DMAPS Investigation Unit

All investigators have been through the above training, the required facility training and the NIC investigators curriculums. Training was verified by review of the training files.

A file review of all PREA allegations over the last twelve months showed detailed documentation of evidence (including electronic monitoring), interviews (alleged victim/perpetrator and witnesses) and pertinent data. Documentation was noted by date and time; video copies were attached to the files and copies of reports and allegations. Interviews are tape recorded. The file format was excellent.

The interview with the investigator included discussion on the format for making a referral for prosecution. (Note: there have been no findings during this past twelve (12) months that rose to the level of criminal prosecution.) Credibility of witnesses is based upon the findings, not on their legal status.

The agency conducts its own investigations into allegations of sexual abuse and sexual harassment, promptly, thoroughly, and objectively for all allegations, including third-party and anonymous reports.

Any mutual sexual contact between offenders is a rule violation but shall not constitute sexual abuse. Offenders shall be subject to disciplinary sanctions pursuant to an investigation that concluded that the offender engaged in offender-on-offender sexual abuse. Offenders may be charged with a facility rule violation even if they are also being charged within the court system. Sanctions shall be commensurate with the nature and circumstances of the abuse or harassment, the offender's disciplinary history, and the sanctions imposed for comparable offenses by other offenders with similar histories. The disciplinary process shall consider whether an offender's mental disabilities or mental illness contributed to their behavior when determining what type of sanction, if any, should be imposed. The facility may discipline an offender for sexual contact with staff only upon a finding that the staff member did not consent to such contact.</p> <p data-bbox="242 945 1481 1075">Policy # 430.00, page 19 A states: When an offender is found guilty of Misconduct related to sexual abuse and the facility offers therapy, counseling, or other interventions designed to address and correct underlying reasons or motivations for the abuse, the facility shall consider whether to require the offending inmate to participate in such interventions as a condition of access to programming or other benefits.</p> <p data-bbox="242 1102 1481 1198">Policy # 430.00, page 19 B states: A report of sexual abuse made in good faith based upon a reasonable belief that the alleged conduct occurred shall not constitute falsely reporting an incident or lying, even if an investigation does not establish evidence sufficient to substantiate the allegation.</p> <p data-bbox="242 1261 360 1290">Comments:</p> <p data-bbox="242 1317 1485 1480">There are several ways in which the facility can sanction an inmate if found guilty of an administrative investigation: being locked down, taking good time, taking commissary, less access to the kiosk, and notification to the courts. If the inmate has cognitive or mental health problems, a referral is made to their internal mental and/or medical health provider. This is also reviewed during the hearing and appeal process. Those inmates who make a report, believing it to be true, are "weeded" out quickly and this does not result in a hearing or sanctions.</p>

Materials Reviewed: Policy Directive Number 430.00; Subject – Prison Rape Elimination Act Compliance (PREA); Notices of PREA Audit

Policy # 430.00, page 22 A states: Upon request for information, the Director of PREA Compliance will be responsible to respond to all external surveys, schedule audits required by the Department of Justice's National PREA Standards and comply with all PREA requirements and ensure that at least one-third of each facility type under the DCR's control is audited during each year of the three-year audit cycle.

Policy # 430.00, page 22 B states: The auditor will review and have access to all relevant information listed below:

1. Policies, procedures, reports, internal and external audits, and accreditations for each facility type,
2. A sampling of relevant documents and other records and information for the most recent one-year period,
3. Shall observe, all areas of the audited facilities.
4. Shall be permitted to request and receive copies of any relevant documents (including electronically stored information).
5. Shall retain and preserve all documentation (including, e.g., video tapes and interview notes) relied upon in making audit determinations. Such documentation shall be provided to the Department of Justice upon request.
6. Shall interview a representative sample of inmates, residents, and detainees, and of staff, supervisors, and administrators.
7. Shall review a sampling of any available videotapes and other electronically available data that may be relevant to the provisions being audited.
8. Shall be permitted to conduct private interviews with inmates, residents, and detainees.
9. Shall attempt to communicate with community-based or victim advocates who may have insight into relevant conditions in the facility.

All inmates, residents, and detainees shall be permitted to send confidential information or correspondence to the auditor in the same manner as if they were communicating with legal counsel.

WVDCR Policy, 430.00, Subject – Prison Rape Elimination Act Compliance (PREA), the Department will conduct audits pursuant to 28 C.F.R/ 114.401-405. Each facility operated by the Department will be audited every three years or on a schedule determined by the Director of PREA Compliance.

The West Virginia Division of Corrections and Rehabilitation ensures that 1/3 of their prisons are audited each year for compliance with the PREA Standards each year so that at the end of the 3-year cycle, all prisons have been audited. The Mount Olive Correctional Complex and Jail was previously audited for compliance with the PREA Standards January 2, 2020.

West Virginia Division of Corrections and Rehabilitation contracts for medical care and at this facility service are provided by Wexford. The local Women's Resource Center will provide a victim advocate as requested by the facility.

The West Virginia Division of Corrections and Rehabilitation also contracts with county facilities. Policy requires that county facilities operated on behalf of the Department (housing state offenders) must meet the same audit requirements. These entities are responsible for scheduling and funding their audits. All audits are required to be certified by the Department of Justice and each facility will bear the burden of demonstrating compliance with the federal standards. A copy of the final report will be submitted to the Department's Director of PREA Compliance upon completion of the audit and must be conducted every three years.

The facility posted the Notices of PREA Audit forty-five (45) days before the on-site portion of the audit with the Auditor's contact information in areas of the facility accessible to inmates, staff, contractors, volunteers and visitors six weeks prior to the on-site audit. These were observed in living units and other areas accessible to staff, inmates, contractors, volunteers and visitors. Forty-five (45) days prior to the onsite audit the auditor and PREA Compliance Manager communicated via email to discuss the audit process. Communications with the PREA Compliance Manager were often and productive.

The information contained on the uploaded PAQ contained the WVDCR policies applicable to the standards as well as documentation to help the auditor understand the mission of the facility, the layout of the facility, and facility operations, including the staffing required for the population of maximum and medium security adult males. The auditor provided the facility and extensive list of documents that the auditor would be asking for on-site. The facility was always responsive and helpful and complied with any request. During the on-site audit the facility was requested to provide documentation and the documentation was readily available.

The on-site audit of the Mount Olive Correctional Complex and Jail was conducted by one Auditor, certified in both Juvenile and Adult Standards. During the on-site audit, the auditor was provided complete and unfettered access to all areas of the facility and to all the inmates, staff, and contractors. The auditor was able to move about the facility any time needed.

Adequate space was provided for auditor to conducted interviews in complete privacy with staff, inmates, and contractors. During the on-site tour, the auditor tested phones to ensure they were operational. The auditor placed a call to the PREA Unit's Hotline number, and conformation receipt of the call. The auditor was unable to observe the intake and risk screening processes, the facility had no new arrivals during the on-site portion of the audit. The auditor informally interviewed inmates and staff during the site tour.

The audit observed the secure file rooms containing investigations, intake risk screenings, and medical and mental health files. Staff confirmed during conversation that the Inmate Database can only be accessed by staff that has permission to view the information on a need-to-know basis.

The Notice of PREA Audit was observed posted throughout the facility and in the living units. The notice contained contact information for the auditor. During the site review of the facility the auditor informally talked with inmates and staff. Prior to the onsite portion of the audit the auditor received no correspondences from inmates, contractors, visitors, staff, or interested outside parties.

The auditor reviewed inmate files, made observations throughout the on-site audit, thoroughly reviewed large samples of documentation, tested processes (including checking victim/aggressor assessment time periods), interviewed staff, contractors and inmates. Multiple personnel files were reviewed to assess the hiring process and background checks.

The auditor and the PREA Compliance Manager continued to work together following the on-site phase of the audit, when additional information was needed; all information requested was provided in a timely manner.

Comments:

The auditor was able to view the entire facility by physically walking the facility. Staff was cooperative and assisted with helping the auditor complete private interviews. All requested documentation was provided. Postings of the on-site audit were observed throughout the facility.
