In rare instances where an auditor determines that a standard is not applicable, the auditor should select "Meets Standard" and include a comprehensive discussion as to why the standard is not applicable to the facility being audited.

<p>55. How did you ensure your sample of RANDOM INMATE/RESIDENT/DETAINEE interviewees was geographically diverse?</p>	<p>Using the inmate roster, the auditor selected random inmates from all housing units by race, ethnicity and age.</p>

<p>Targeted Inmate/Resident/Detainee Interviews</p>	
<p>58. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:</p>	<p>10</p>
<p>As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".</p>

SITE REVIEW AND DOCUMENTATION SAMPLING

Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

84. Did you have access to all areas of the facility?

Yes

No

Was the site review an active, inquiring process that included the following:

85. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?

Yes

86. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?

<p>88. Informal conversations with staff during the site review (encouraged, not required)?</p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
<p>89. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).</p>	<p>Corrective Actions:</p> <ol style="list-style-type: none"> 1) The review of inmate education determined the facility was non-compliant with standard 115.33. 2) Review of assessments and reassessment were not being completed as standard 115.41 requires. 3) Phones lines were not operational due changing to a new vendor for phone services, inmates did not have access to PREA Hotline. Standard 115.51 4) During the site-tour the auditor determined the facility did not have enough PREA signage with reporting information posted throughout the facility, the facility was non-compliant with standard 115.51. <p>The interim report has been submitted to the facility for corrective actions for standards 115.33, 115.41 and 115.51.</p>
<p>Documentation Sampling</p>	
<p>Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.</p>

Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

92. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:

The goal of the Office of PREA Compliance is to continually make every effort to prevent, detect, and respond to such conduct.

PREA Standard§ 115.11 mandates that each facility designate a PREA compliance manager with sufficient time and authority to coordinate the facility's efforts to comply with the PREA standards.

Comments:

The West Virginia Division of Corrections and Rehabilitation takes the Prison Rape Elimination Act very seriously. They have developed the Office of PREA Compliance (statewide) which deals strictly with the components of PREA. This Department is, reports to the Inspector General. The Office of PREA Compliance is made up of the Director, two (2) PREA Coordinators (one for prisons and jails, the other for juveniles) and a secretary. The two (2) PREA Coordinators oversee 36 facility Compliance Managers (sixteen (16) prisons, ten (10) jails and ten (10) juvenile facilities). Each designated PREA Compliance Manager is assigned PREA as an additional duty. The PREA Compliance Managers report to the Superintendent of the facility that they are assigned.

Inmates, staff, contractors and volunteers are trained on the zero-tolerance policy. They acknowledge and sign Certificates of Understanding. The auditor reviewed

Training Rosters documenting completion of PREA Training. Certificate of Understandings for employees and contractors affirms they have received training on the Department's Zero Tolerance Policy on Sexual Abuse and Sexual Harassment. They also acknowledge that violation of the policy will result in disciplinary action, including termination or being banned from entering any correctional institution.

Based on the auditor's review and analysis of the evidence, the facility has demonstrated compliance with all provisions of this standard.

"It should be noted, that at the time of submission of the facility's PAQ, the Superintendent has changed three times; as well as the PREA Coordinator. At the time of the on-site portion, the Superintendent was David Young and the PREA Compliance Manager was Chad Lester. While in corrective action, the Acting Superintendent was Donnie Ames and by completion Jonathan Frame is now the interim Superintendent and Justin Davis is serving as the PREA Compliance Manager."

Policy # 430.00, page 5 A states: WVDCR shall ensure that each of its facilities develops, documents and makes its best efforts to comply with the PREA staffing plan that provides for adequate levels of staffing, and, where applicable, video monitoring, to protect offenders against sexual abuse. In calculating adequate staffing levels and determining the need for video monitoring, facilities shall take into consideration:

1. Generally accepted detention and correctional practices.
2. Any judicial finding of inadequacy.
3. Any findings of inadequacy from federal investigative agencies.
4. Any findings of inadequacy from internal or external oversight bodies.
5. All components of the facility's physical plant (including blind spots or areas where staff or offenders may be isolated).
6. The composition of the offender population.
7. The number and placement of supervisory staff.
8. Facility programs occurring on various shifts.
9. Any applicable State or local laws, regulations or standards.
10. Any prevalence of substantiated and unsubstantiated incidents of sexual abuse; and.
11. Any other relevant factors.

Policy # 430.00, page 5 B states: In circumstances where the staffing plan is not complied with, the Facility PREA Compliance Manager or designee shall document the

noncompliance, in writing, and justify all deviations from the plan. This documentation will be forwarded to the Facility's Superintendent, appropriate Assistant Commissioner and the Office of PREA Compliance.

Policy # 430.00, page 5 C states: Whenever necessary, but no less frequently than once a year, the Facility PREA Compliance Manager from each facility, in consultation with the Office of PREA Compliance, shall assess, determine and document whether adjustments are needed to:

1. The PREA staffing plans.
2. Prevailing staffing patterns.
3. The facility's deployment of video monitoring systems and other monitoring technologies.
4. The resources the facility has available to commit to ensure adherence to the staffing plan.

Policy # 430.00, page 6 D states: In an effort to identify and deter staff sexual abuse and sexual harassment, the Facility Superintendent shall ensure that the PREA Compliance Manager is completing unannounced rounds on all shifts. These rounds will be conducted in all areas of the facility, specifically in all offender living areas. Completion of unannounced rounds shall be documented in the appropriate database.

Policy # 430.00, page 6 E states: Any staff member found to be alerting other staff that these rounds are occurring will be subject to disciplinary action unless such announcement is related to the legitimate operational functions of the facility.

The facility has implemented the policy and practice of having intermediate-level or higher-level supervisors conduct and document unannounced rounds to identify and deter staff sexual abuse and sexual harassment. These unannounced rounds occurred on night shifts as well as day shifts. The policy also prohibited staff from alerting other staff members that these supervisory rounds were occurring. The PREA Compliance Managers at the facility reported that these rounds have been regularly completed over the last year. Rounds are documented via shift log and the Unannounced Rounds Form.

Comments:

Per the PAQ and interviews with administrators, shortages of staff occur due to hospital duty, call-offs and agency's inability to attract qualified staff. The facility's response to staff call-offs, sick leave, etc. is to freeze staff, other WVDCR staff volunteer to work overtime to ensure the facility is always adequately staffed. This facility has not deviated from the Staffing Plan in the last 12 months.

Staffing plans are reviewed yearly. With the development of the Office of PREA Compliance, the format for staffing plans and how it is reviewed has become more formalized. The facility PREA Compliance Manager shared that he is involved with the Staffing Plan. He reviews it with the Director of PREA Compliance, the PREA

Coordinator and Superintendent before it is finalized. There are no judicial or federal investigative findings of inadequacy. The facility staffing plan was updated in March 2022.

Based on the auditor's review and analysis of the evidence, the facility has demonstrated compliance with all provisions of this standard.

L. All such training shall be documented through employee signature or electronic verification that employees understand the training they have received.

Comments:

At the time of the on-site audit, there were transgender inmates at this facility. Inmates interviewed stated that they feel safe at the facility. All individuals interviewed (Superintendents, staff, and inmates) stated that no cross-gender searches, visual body cavity searches or pat-downs have occurred at the facility; however, all staff have been trained to conduct searches.

Comments:

Files of staff were reviewed for compliance of this standard. All files reviewed had up-to-date criminal history checks. Comments:

The facility investigators complete administrative investigations. Criminal Investigations are completed by the West Virginia State Police. The written agreement between the agency and the WV State Police is "for the purpose of responding, investigating and if needed legally charging sexual assault/rape perpetrators for incidents that occur while incarcerated at any of the West Virginia Prisons or Work Camps. Partnership will commence on any date set forth and will be managed and maintained in compliance with PREA Standards.

A memo was provided in the PAQ, dated June 14, 2022, from the WVDCR Director of PREA Compliance explaining the reasons the WVDCR no longer has a MOU with WVFRIS. That memo is explained below. However, since the date of the on-site audit and during this corrective action period, the WVDCR has entered into an agreement

with WVFRIS.

“Prior to the Correctional systems in WV being consolidated, the Division of Juvenile Services, Regional Jail authority and the Division of Corrections each had an agreement in place for outside support services. Each agency partnered with the

West Virginia Foundation for Rape Information & Services (FRIS). While reviewing these agreements, I discovered they were inconsistent in terms of services provided versus the costs associated with the services. In early 2019 we began negotiating with FRIS to develop an agreement to encompass Jails, Prisons and Juvenile facilities. We have met numerous times and continue to make attempts to enter an agreement that both parties are amenable to. In late 2021 we discovered some grant funding that we thought would fund the agreement. However, FRIS determined that the funds obtained would cover the cost of an administrator to manage the agreement between FRIS and WVDCR. This again left us looking for another source of funding for services. We continue to negotiate with FRIS and work toward an agreement. While we do not have an all-encompassing agreement in place, the local rape crisis centers are receptive to our requests and continue to assist us as needed. At this time, we rely on our mental health staff to assist with these services as needed”.

The interview with the facility PREA Investigator verified the protocol taken in evidence collection. The interviews with staff confirmed that they were aware of the format to collect evidence if required to do so.

The Health Services Administrator stated that no victim is ever charged for any examination, medical follow-up, or advocacy services (to include psychiatric care) related to sexual abuse or harassment. Additionally, all stated that forensic SANE examinations are conducted at the local hospital. The PREA Checklists are concise and well maintained. The facility Mental Health staff serves as an advocate should the inmate request one.

The Women’s Resources Center has agreed to provide an advocate as needed should an Inmate be sexually assaulted and provide a hotline for inmates. This was confirmed through a call made to the Executive Director of the center by the auditor.

Based on the auditor’s review and analysis of the evidence, the facility has demonstrated compliance with all provisions of this standard.

Comments:

The WV Division of Corrections & Rehabilitation, PREA Screening Instrument (Initial and Reassessment) was reviewed and contains all the elements of 115.41 (d) (e). The completion of the Initial Assessment occurs while the inmate is still in booking. The Counselors at the facility ensure the completion of the Reassessments within 30 days of admission per PREA Policy. Interviews revealed that not all reassessments were being completed timely and documented correctly. The Office of PREA Compliance has completed a revised protocol for the completion of reassessments, to include when additional reassessments should occur. Since the on-site portion, the PREA Coordinator has supplied this auditor with copies of assessments and reassessments for the three months post audit. All assessments and reassessments are being completed in accordance with WVDCR policies and Federal PREA Standards.

When Assessments and Reassessments are completed, the forms are placed in the inmate files. These files are kept behind a locked door with limited access to staff. Potential victim or predators are noted, an "Alert" is placed in their computer system. This information is used for housing assignments and work details, if applicable.

Comments:

The Superintendent stated that an inmate cannot be isolated involuntarily because they are a victim and that only under necessary conditions would an inmate be placed in involuntary segregation. Comments:

A memo was provided in the PAQ, dated June 14, 2022, from the WVDCR Director of PREA Compliance explaining the reasons the WVDCR no longer has a MOU with WVFRIS. That memo is explained below. However, since the date of the on-site audit and during this corrective action period, the WVDCR has entered into an agreement with WVFRIS.

“Prior to the Correctional systems in WV being consolidated, the Division of Juvenile Services, Regional Jail authority and the Division of Corrections each had an agreement in place for outside support services. Each agency partnered with the West Virginia Foundation for Rape Information & Services (FRIS). While reviewing these agreements, I discovered they were inconsistent in terms of services provided versus the costs associated with the services. In early 2019 we began negotiating with FRIS to develop an agreement to encompass Jails, Prisons and Juvenile facilities. We have met numerous times and continue to make attempts to enter an agreement that both parties are amenable to. In late 2021 we discovered some grant funding that we thought would fund the agreement. However, FRIS determined that the funds obtained would cover the cost of an administrator to manage the agreement between FRIS and WVDCR. This again left us looking for another source of funding for services. We continue to negotiate with FRIS and work toward an agreement. While we do not have an all-encompassing agreement in place, the local rape crisis centers are receptive to our requests and continue to assist us as needed. At this time, we rely on our mental health staff to assist with these services as needed”.

The facility Mental Health staff could serve as an advocate should the inmate request one.

Based on the auditor’s review and analysis of the evidence, the facility has demonstrated compliance with all provisions of this standard.

Comments:

The Policy for first responder duties is inclusive. Staff was able to recite the steps to be taken when an allegation occurs. Many staff, when asked about behavioral restrictions for the participants in the assault, was able to share the victim's actions, and the perpetrator's actions.

Interviewed staff, including non-uniformed staff, explained the steps required as a first responder. They were consistent in their responses and the responses were consistent with Policy and the WVDCR Coordinated Response Plan.

Based on the auditor's review and analysis of the evidence, the facility has demonstrated compliance with all provisions of this standard.

The facility has a Coordinated Response Plan to ensure that during an emergency, like other emergency plans required for secure facilities. The WVDCR Checklists serves as a coordinated response plan as well. The Coordinated Response Plan identifies actions to be taken by various components of the facility in response to an allegation of sexual abuse. If there was a sexual assault allegation, the facility, complying with WVDCR Policy, can identify actions taken by staff in response to a report of sexual abuse or of sexual misconduct.

Comments:

The facility uses curriculum written for jail investigators. Such as:

- PREA – Report Writing; Prepared by D.L. Rosier, Jr., Former Deputy Director; DMAPS Investigation Unit.
- Miranda, Garrity, PREA and Such; Prepared by Michael W. Parker, ESQ.; Randolph County Prosecuting Attorney.
- Interview of Sexual Assault Victims in a Confined Setting; Prepared by D.L. Rosier, Jr., Former Deputy Director; DMAPS Investigation Unit.

All investigators have been through the above training, the required facility training and the NIC investigators curriculum.

Training was verified by review of the training files.

A file review of all PREA allegations over the last twelve months confirmed detailed documentation of evidence (including electronic monitoring), interviews (alleged victim/perpetrator and witnesses) and pertinent data. Documentation was noted by date and time; video copies were attached to the files and copies of reports and allegations. Interviews are tape recorded.

The interview with the investigator included discussion on the format for making a referral for prosecution. Credibility of witnesses is based upon the findings, not on the status of a staff member or inmate.

Closed investigation files remain in the investigator office.

Based on the auditor's review and analysis of the evidence, the facility has demonstrated compliance with all provisions of this standard.

Sanctions shall be commensurate with the nature and circumstances of the abuse or harassment, the offender's disciplinary history, and the sanctions imposed for comparable offenses by other offenders with similar histories. During interviews with the Superintendent and medical staff, they indicated the policy requires that the disciplinary process considers whether an offender's mental disabilities or mental illness that may have contributed to behavior when determining what type of sanction, if any, will be imposed. And if the facility offers therapy, counseling, or other interventions to address and correct underlying reasons or motivations for the abuse, the facility is required to consider whether to offer the offending inmate to participate in such interactions as a condition of access to programming or other benefits. Policy affirms that an offender may be disciplined for sexual contact with a staff member only upon finding that the staff member did not consent to such contact.

Based on the auditor's review and analysis of the evidence, the facility has demonstrated compliance with all provisions of this standard.

Comments:

The facility provided all requested copies of relevant documents. After the on-site portion of the audit, the facilities provide additional information in the supplemental file uploaded to the PAQ. The supplemental files contained PREA allegations investigations for the 12 months preceding the audit.

The auditor was provided adequate space to conduct interviews with inmates, staff, contractors, and administrators. During the on-site portion of the audit, no volunteers were available for interview. All interviews were conducted in complete privacy. All selected inmates, random and targeted were cooperative, no inmates refused interview with auditor. Staff was cooperative and assisted with helping the auditor complete private interviews. During the site-tour, the auditor informally interviewed staff and inmates.

Audit notices were posted 45 days prior to the on-site portion of the audit with the auditor's contact information so anyone from the facility or outside interested parties could send confidential corresponds to the auditor. This was confirmed through written confirmation from the facility, photos of postings via email, and during the site tour. The notices were posted throughout the facility in living units, visitation, chow hall, and administrative areas. Notices were posted in areas accessible to inmates, staff and visitors. The auditor received no corresponds from inmates, staff, or outside interested parties.

The auditor was able to view the entire facility by physically walking the facility and through the use of cameras.

Based on the auditor's review and analysis of the evidence, the facility has demonstrated compliance with all provisions of this standard.
