AUDIT FINDINGS

Narrative:

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-audit, on-site audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

Introduction

The Prison Rape Elimination Act (PREA) audit onsite phase for Pruntytown Correctional Center was conducted October 21 – 22, 2021. Pruntytown Correctional Center is located 2006 Trap Springs Road, Grafton WV. 26354. The audit was conducted by Mable P. Wheeler from Macon, Georgia, who is a U. S. Department of Justice Certified PREA auditor for adults and juvenile facilities. The audit was assigned to Diversified Correctional Services, LLC as part of a contractual agreement with WV Division of Corrections and Rehabilitation. There are no known existing conflicts of interest or barriers to completing the audit. The facility has not been audited for compliance with the PREA Standards.

Mission:

The mission of the West Virginia Division of Corrections is to enhance public safety by providing safe, secure, and humane correctional facilities, operating an effective system of offender re-entry and community supervision reducing offender recidivism and assisting victims of crime.

Audit Methodology

Pre-Onsite Audit Phase

Prior to the onsite visit, the auditor contacted the PREA Compliance Manager to discuss the audit process and to set a tentative daily agenda and schedule for the onsite audit. The auditor requested the following information be provided the first day of the audit: daily population report, staff roster to include all departments; inmate roster by housing unit; listing of staff who perform risk assessments, list of medical staff; list of contractors and volunteers available during the audit; list of inmates with a PREA classification (identified through risk screening); list of lesbian, gay, bisexual, transgender, and intersex inmates; list of disabled (deaf, hard of hearing, blind, low vision, low cognitive skills) inmates, list of limited English proficient, inmates, list of allegations with investigation outcomes etc. This information was utilized to establish the interview schedules for the selection of inmates and staff to be interviewed; specialized interviews; due to Covid concerns, some specialized staff interviews were conducted privately via Zoom on September 21, 2021.

Notice of Audit Posting and Timeline

The audit notice was posted August 20, 2021. The audit notice was posted in English and Spanish on colorful paper using a large font. The audit notices were placed throughout the facility, in places visible to all Inmates, staff and visitors. Confirmation of revised audit notices was emailed to the auditor on August 20, 2021. Further verification of their placement was made through observations during the onsite Review and conversations with the inmates. The audit notices included a statement regarding confidentiality of inmate and staff correspondence with the auditor. Auditor received no correspondences from inmates or staff prior to the onsite audit.

Pre-Audit Questionnaire (PAQ) and Supporting Documentation

The PAQ and supporting documentation was uploaded into the PREA Online Audit System. Information for the current period (last 12 months) was provided by the facility. The auditor reviewed the PAQ, policy, procedures, and supporting documentation. AUDIT FINDINGS

Summary of Audit Findings:

The OAS will automatically calculate the number of standards exceeded, number of standards met, and the number of standards not met based on the auditor's compliance determinations. If relevant, the auditor should provide the list of standards exceeded and/or the list of standards not met (e.g. Standards Exceeded: 115.xx, 115.xx..., Standards Not Met: 115.yy, 115.yy). Auditor Note: In general, no standards should be found to be "Not Applicable" or "NA." A compliance determination must be made for each standard. In rare instances where an auditor determines that a standard is not applicable, the auditor should select "Meets Standard" and include a comprehensive discussion as to why the standard is not applicable to the facility being audited.

XIV. Pertains Only to Juvenile Facilities

The goal of the Office of PREA Compliance is to continually make every effort to prevent, detect, and respond to such conduct.

PREA Standard§ 115.11 mandates that each facility designate a PREA compliance manager with sufficient time and authority to coordinate the facility's efforts to comply with the PREA standards.

Comments:

The West Virginia Division of Corrections and Rehabilitation takes the Prison Rape Elimination Act very seriously. They have developed the Office of PREA Compliance (statewide) which deals strictly with the components of PREA. This Department is responsible to the Assistant Commissioner, Inspector General Bureau. The Office of PREA Compliance is made up of the Director, two (2) PREA Compliance Officers (one for prisons and jails, the other for juveniles) and a Secretary. The two (2) PREA Compliance Officers oversee 36 facility Compliance Managers (sixteen (16) prisons, ten (10) jails and ten (10) juvenile facilities). Each designated Compliance Manager is assigned only the responsibilities associated with PREA and reports to the Director of PREA Compliance and the Superintendent of the facility that they are assigned.

Inmates, staff, contractors, and volunteers are trained on the zero-tolerance policy. They acknowledge and sign PREA Acknowledgment Statement. The auditor reviewed Training Rosters documenting completion of PREA Training. Acknowledgement Statements for employees and contractors and volunteers affirms they have received training on the Department's Zero Tolerance Policy on Sexual Abuse and Sexual Harassment. They also acknowledge that violation of the policy will result in disciplinary action, including termination or being banned from entering any correctional institution.

These rounds will be conducted in all areas of the facility, specifically in all offender living areas. Completion of unannounced rounds shall be documented in the appropriate database.

Policy # 430.00, page 6 E states: Any staff member found to be alerting other staff that these rounds are occurring will be subject to disciplinary action unless such announcement is related to the legitimate operational functions of the facility.

The facility has implemented the policy and practice of having intermediate-level or higher-level supervisors conduct and document unannounced rounds to identify and deter staff sexual abuse and sexual harassment. These unannounced rounds occurred on night shifts as well as day shifts. The policy also prohibited staff from alerting other staff members that these supervisory rounds were occurring. The PREA Compliance Managers at facility reported that these rounds have been regularly completed over the last year. Rounds are documented via shift log and the Unannounced Rounds Form.

Comments:

Per the PAQ and interview with administrators, shortages of staff occur due to hospital duty, call-offs and agency's inability to attract qualified staff. The facility response to staff call-offs, sick leave, etc. is to freeze staff, other DCR staff volunteer to work overtime to ensure the facility is fully staffed at all times. The facility has not deviated from the Staffing Plan in the last 12 months.

Staffing plans are reviewed yearly. With the development of the Office of PREA Compliance the format for staffing plans and how it is reviewed has become more formalized. The facility PREA Compliance Manager shared that she is involved with the Staffing Plan. She reviews it with the Director of PREA Compliance, the PREA Coordinator and Superintendent before it is finalized. There are no judicial or federal investigative findings of inadequacy. The facility staffing plan was updated in February 2021.

Comments:

The facility investigators complete administrative investigations. Criminal Investigations are completed by the West Virginia State Police. The written agreement between the agency and the WV State Police is "for the purpose of responding, investigating and if needed legally charging sexual assault/rape perpetrators for incidents that occur while incarcerated at any of the West Virginia Prisons or Work Camps. Partnership will commence on any date set forth and will be managed and maintained in compliance with PREA Standards."

The agreement between the West Virginia Division of Corrections and Rehabilitation and the West Virginia Foundation for Rape Information and Services and its Partnering Agencies is quite extensive. It provides a lengthy description of the "Scope of Work" (including training, number of victim services hours, creation of a brochure, statewide MOU, safety and security, confidentiality, criminal background checks) and Terms and Conditions (Scope of Services, Term, Accounting and Payment for Contractor Services, Delegation and Subcontracting, Contractor Relationship, No Guarantee of Employment, Regulations and Requirements, Right to Review, Modifications, Termination for Default, Termination for Any Other Reason, Termination Due to Insufficient Funds, Termination Procedure, Defense and Indemnity

The interview with the facility PREA Investigator verified the protocol taken in evidence collection. The interviews with staff confirmed that they were aware of the format to collect evidence if required to do so.

West Virginia Foundation for Rape Information and Services indicated that the facility contacts them upon the need for a victim advocate at the facility. The Health Services Administrator stated that no victim is ever charged for any examination, medical follow-up, or advocacy services (to include psychiatric care) related to sexual abuse or harassment. Additionally, all stated that forensic SANE examinations are conducted at the local hospital. The PREA Checklists are concise and well maintained.

In case of visually impaired or an inmate with cognitive disabilities, staff related that counselors are there to review the information with them. All inmates are required to view PREA video on kiosk prior to gaining initial access to equipment.

Comments:

The WV Division of Corrections & Rehabilitation, PREA Screening Instrument (Initial and Reassessment) was reviewed and contains all the elements of 115.41 (d) (e). The completion of the Initial Assessment occurs while the inmate is still in booking. The Counselors at the facility ensure the completion of the Reassessments within 30 days of admission per PREA Policy. Interviews revealed that not all reassessments included a face to face with inmate. The Office of PREA Compliance has completed a revised protocol for the completion of reassessments, to include when additional reassessments should occur. Auditor has monitored assessments/reassessments for the last forty-five (45) days to ensure that process has been implemented.

When Assessments and Reassessments are completed, the forms are placed in the inmate files. These files are kept behind a locked door with limited access to staff. Potential victim or predators are noted, an "Alert" is placed in their computer system. This information is used for housing assignments and work details, if applicable.

Comments:

The interviews with staff confirmed that all understand that the West Virginia Fusion Center is another format for self-reporting and third-party referrals. The WVDCR's website is clear on how to report sexual abuse. Most inmates interviewed were not aware of the outside advocate service available to them to report sexual abuse, but most inmates said they could find the information if needed. However, most inmates related they would report via tablet or the hotline number.

The DCR shall not require an offender who alleges unwanted forced sexual abuse to submit to a polygraph examination or other truth telling device as a condition of proceeding with the investigation of such an allegation. Disciplinary sanctions for violations of DCR policies relating to sexual abuse or sexual harassment (other than actually engaging in sexual abuse) shall be commensurate with the nature and circumstances of the acts committed, the staff member's disciplinary history, and the sanctions imposed for comparable offenses by other staff with similar histories. All terminations for violations of sexual abuse or harassment policies, or resignations by staff that would have been terminated if not for their resignation, will be documented and reported to law enforcement agencies, unless the act was clearly not criminal, and to any relevant licensing bodies. The departure of the alleged abuser or victim from the employment or control of the DCR shall not provide a basis for terminating an investigation.

Policy # 430.00, page 18 K states: At the conclusion of the investigation, the investigator will prepare an investigative report that documents a description of the physical and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings and all documentary evidence when feasible. The investigative findings will indicate whether the evidence supports a finding that sexual abuse has occurred (substantiated), the allegation is false (unfounded), or the evidence is inconclusive (unsubstantiated). If the case has not already been referred for criminal prosecution, the Investigator will refer substantiated allegations of conduct that appears to be criminal for prosecution in the county where the assault occurred. If any State entity or Department of Justice component conducts investigations shall do so pursuant to the above requirements.

Policy # 430.00, page 17 E states: When an outside agency investigates sexual abuse, the DCR shall request that the investigating agency follow the Medical and Mental Health requirements of this policy. Comments:

The facility uses curriculums written for jail investigators. Such as:

- PREA – Report Writing; Prepared by D.L. Rosier, Jr., Former Deputy Director; DMAPS Investigation Unit
- Miranda, Garrity, PREA and Such; Prepared by Michael W. Parker, ESQ.; Randolph County Prosecuting Attorney
- Interview of Sexual Assault Victims in a Confined Setting; Prepared by D.L. Rosier, Jr., Former Deputy Director; DMAPS Investigation Unit

All investigators have been through the above training, the required facility training and the NIC investigators curriculums.

Training was verified by review of the training files.

A file review of all PREA allegations over the last twelve months confirmed detailed documentation of evidence (including electronic monitoring), interviews (alleged victim/perpetrator and witnesses) and pertinent data. Documentation was noted by date and time; video copies were attached to the files and copies of reports and allegations. Interviews are tape recorded.

The interview with the investigator included discussion on the format for making a referral for prosecution. Credibility of witnesses is based upon the findings, not on the status of a staff member or inmate.

Closed investigation files remain in the investigator office.
